

Stamped folder

Poly Folder

This unique product is indestructible. Made of 16 gauge poly, it includes two pockets to hold important papers. Have you ever turned a folder upside down and the papers fell out?? It will not happen with this folder.

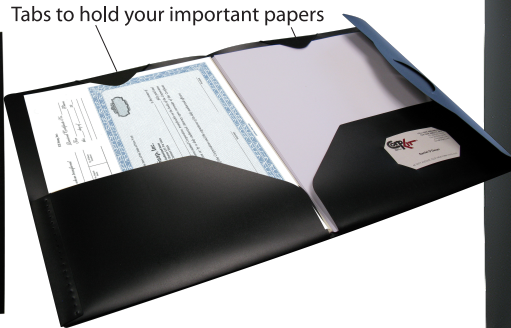

What makes it unique is there is a top tab on each inside pocket to secure the papers from falling out. A handy, fold-over flap help keep the folder closed for added security and protection. Also included is an area to add your business card on the right inside pocket. We can imprint your name and address in gold or silver for a nominal up-charge.
